User Stories

As an administrator I want to see information about users to be able to see their activity

As a student I want to add new, delete old or note current labs to monitor the state of affairs

As a student I want to have this app on my phone to be able to change anything at any time

As an absent-minded person I want to be able to take notes to not lose important information

As a user I want to login to the system to have a private office with all the necessary info
